Day 6 : Calafate - Perito Moreno Glacier (B)

After an early breakfast pick up for a full day excursion to Perito Moreno Glacier. This park has been declared as Mankind Heritage by UNESCO. Those glaciers here show a 10 thousand-year-old world, cold and wild. The most famous one is Perito Moreno, in the southwestern end of the Argentino Lake 80 km away from El Calafate. It's called after a great Argentinian explorer of the last century. It is one of the most spectacular natural shows in South America. From time to time its 60 m high snout releases ice walls the size of buildings falling into Rico Bend or Canal de los Témpanos, from there they continue sailing along the channel to the main area of the lake. The glacier, while moving forward comes closer to the Magallanes Peninsula, the opposite lake bank as well as footbridge and viewpoint area. This cycle takes from 4 to 6 years and eventually separates the lake into two areas.
